

Numonix Wins 2020 Cloud Computing Excellence Award for IXCloud for Microsoft Teams

IXCloud Records, Stores and Analyzes Microsoft Teams Interactions Without Physical or Virtual Servers

BOCA RATON, Fla., Oct. 21, 2020 — Numonix, the developer of the most versatile interaction recording solution for Unified Communication platforms, today announced it has received a 2020 Cloud Computing Excellence for its [IXCloud](#), one of the first fully managed compliance recording solutions for Microsoft Teams.

Recognizing companies that have most effectively leveraged cloud computing to bring new, differentiated services and solution to market, the award is presented by [Cloud Computing Magazine](#), which is published by [TMC](#), a global, integrated media company.

“We are honored to win a 2020 Cloud Computing Excellence Award for IXCloud,” said Avi Margolin, CEO and CTO of Numonix. “Simple to set up and use, IXCloud empowers organizations of any size to take advantage of our fully managed, native Azure-based recording service for Microsoft Teams.”

IXCloud records, stores and analyzes interactions without physical or virtual servers. Uniquely activated as a fully managed service while utilizing the flexibility of Azure services, IXCloud enables instant and elastic scalability to support business growth and provides the necessary tools to maintain compliance and enhance business performance. The IXCloud OpenAPI also enables companies and third-party developers to benefit from IXCloud native capture technology, whether it be integrating with internal systems or building a third-party application.

“Congratulations to Numonix for being honored with a Cloud Computing Excellence Award,” said [Rich Tehrani](#), CEO, TMC. “Numonix’s IXCloud is a truly innovative product and is amongst the best communications products and services available today.”
